

## **Activity – Module V (2)**

### **Task:**

Research the healthcare costs associated with unmitigated air pollution.

### **Objectives:**

- Identify some of the sources of air pollution.
- Describe the impact that air pollution is having on human health.

### **Length:**

½ - 1 page

### **Additional information:**

- Please consult the provided resources in the process of solving this task.
- If possible, present some measures individuals can take to protect themselves from air pollution and mitigate some of the harmful health impacts. Additionally, present some measures that governments can take to reduce air pollution.
